

**ENFORCEMENT ORDER OF LAW FOR PROMOTION OF
EFFECTIVE UTILIZATION OF RESOURCES**

ENFORCEMENT ORDER OF LAW FOR PROMOTION OF EFFECTIVE UTILIZATION OF RESOURCES

Promulgated : October 18, 1991

Revised : June 23, 1993

Revised : June 7, 2000

Revised : March 22, 2001

(Designated Resources-Saving Industry)

Article 1

The industries to be provided by the Order for each kind of raw materials, etc. and each kind of by-products pertaining to their use as provided in paragraph 7, Article 2 of the Law for Promotion of Effective Utilization of Resources (hereinafter referred to as “Law”) shall be as set forth for the raw materials, etc. listed in column 1 of Appended Table 1 and for each of by-products listed in column 2 of the same table, respectively in column 3 of the same table.

(Designated Resources-Reutilizing Industry)

Article 2

The industries to be provided by the Order for each kind of recyclable resources or reusable parts as provided in paragraph 8, Article 2 of the Law shall be as set forth, for each of the recyclable resources or reusable parts listed in column 1 of Appended Table 2, respectively in column 2 of the same table.

(Specified Resources-Saved Product)

Article 3

The products to be provided by the Order as provided in paragraph 9, Article 2 of the Law shall be as set forth in the left-hand column of Appended Table 3.

(Specified Resources-Reutilized Product)

Article 4

The products to be provided by the Order as provided in paragraph 10, Article 2 of the Law shall be as set forth in the left-hand column of Appended Table 4.

(Specified Labeled Product)

Article 5

The products to be provided by the Order as provided in paragraph 11, Article 2 of the Law shall be as set forth in the left-hand column of Appended Table 5.

(Specified Resources-Reconverted Product)

Article 6

The products to be provided by the Order as provided in paragraph 12, Article 2 of the Law shall be as set forth in the left-hand column of Appended Table 6.

(Specified By-Product)

Article 7

The by-products to be provided by the Order for each of industries as provided in paragraph 13, Article 2 of the Law shall be as set forth, for the industries listed in column 1 of Appended Table 7, respectively in column 2 of the same table.

(Requirements of Products and Production Quantity Pertaining to Preparation of Plan of Designated Resources-Saving Business Entity)

Article 8

The products to be provided by the Order as provided in Article 12 of the law shall be as set forth, for the Designated Resources-Saving Industries listed in column 3 of Appended Table 1, respectively in column 4 of the same table, and the requirements to be provided by the Order as provided in the same Article shall be

that the production quantity of each product listed in the same column for the subject business year is the production quantity listed respectively in column 5 of the same table or more.

(Requirements of Production Quantity Pertaining to Advice to Designated Resources-Saving Business Entity)

Article 9

The requirements to be provided by the Order as provided in paragraph 1, Article 13 of the Law shall be that the production quantity of each product listed in column 4 of Appended Table 1 pertaining to the Designated Resources-Saving Industries listed in column 3 of the same table for the subject business year is the production quantity listed respectively in column 6 of the same table or more.

(Councils to Hear Opinions for Directive to Designated Resources-Saving Business Entity)

Article 10

The councils to be provided by the Order as provided in paragraph 3, Article 13 of the Law shall be as set forth, for each of the Designated Resources-Saving Business Entities pertaining to the Designated Resources-Saving Industries listed in column 3 of Appended Table 1, respectively in column 7 of the same table.

(Requirements for Production Quantity or Construction Work Costs Pertaining to Designated Resources-Reutilizing Business Entity)

Article 11

The requirements to be provided as provided in paragraph 1, Article 17 of the Law shall be as set forth, for the Designated Resources-Reutilizing Industries listed in column 2 of Appended Table 2, respectively in column 3 of the same table.

(Councils to Hear Opinions for Directive to Designated Resources-Reutilizing

Business Entity)

Article 12

The councils to be provided by the Order as provided in paragraph 3, Article 17 of the Law shall be as set forth, for the Designated Resources-Reutilizing Business Entities pertaining to the Designated Resources-Reutilizing Industries listed in column 2 of Appended Table 2, respectively in column 4 of the same table.

(Requirements of Production Quantity Pertaining to Specified Resources-Saved Product Business Entity)

Article 13

The requirements to be provided by the Order as provided in paragraph 1, Article 20 of the Law shall be that the production quantity of each of the Specified Resources-Saved Products listed in the left-hand column of Appended Table 3 for the subject business year is the production quantity listed respectively in the middle column of the same table or more.

(Councils to Hear Opinions for Directive to Specified Resources-Saved Product Business Entity)

Article 14

The councils to be provided by the Order as provided in paragraph 3, Article 20 of the Law shall be as set forth, for each of the Specified Resources-Saved Product Business Entities pertaining to the Specified Resources-Saved Products listed in the left-hand column of Appended Table 3, respectively in the right-hand column of the same table.

(Requirements for Production Quantity Pertaining to Specified Resources-Reutilized Product Business Entity)

Article 15

The requirements to be provided by the Order as provided in paragraph 1, Article 23 of the Law shall be that the production quantity of each of the Specified Resources-Reutilized Products listed in the left-hand column of Appended Table 4 for the subject business year is the production quantity listed respectively in the middle column of the same table or more.

(Councils to Hear Opinions for Directive to Specified Resources-Reutilized Product Business Entity)

Article 16

The councils to be provided by the Order as provided in paragraph 3, Article 23 of the Law shall be as set forth, for the Specified Resources-Reutilized Product Business Entities pertaining to the Specified Resources-Reutilized Products listed in the left-hand column of Appended Table 4, respectively in the right-hand column of the same table.

(Specified Labeled Product Business Entity to be Excepted from Object of Advice)

Article 17

The Business Entities to be provided by the Order as provided in paragraph 1, Article 25 of the Law shall be as listed in the followings:

- (1) incorporated companies and individuals possessing number of employees permanently employed of 20 or less, belonging to the business other than commerce or service business as main businesses;
- (2) incorporated companies and individuals possessing number of employees permanently employed of 5 or less, belonging to commerce or service business as main businesses;
- (3) associations, etc. (referred to Agricultural Cooperative Association, Federation of Agricultural Cooperation Associations, Agricultural Association

Corporation, Forestry Association, Production Forestry Association, Federation of Forestry Associations, Fisheries Cooperative, Consumers' Cooperative Society, Federation of Consumers' Cooperative Societies, Business Cooperative Association, Small Scale Business Cooperative Association, Federation of Cooperative Associations, Joint Enterprise Cooperative, Cooperative Association, Commercial and Industrial Association, Federation of Commercial and Industrial Associations, Shopping Street Advancement Association and Federation of Shopping Street Advancement Associations. The same in the next sub-paragraph.) possessing number of employees permanently employed of 20 or less, belonging to the industry other than commerce or service business as main businesses;

(4) associations, etc. possessing number of employees permanently employed of 5 or less, belonging to commerce or service business as main businesses;

(5) corporations of Civil Code, etc. (referred to Corporations established by provisions of Article 34 of Civil Code (Law No. 89, 1896), Brewers Association, Liquor Sellers Association, Federation of Brewers Associations, Federation of Liquor Sellers Associations, Central Organization of Brewers Associations, Central Organization of Liquor Sellers Associations, Educational Foundation, Corporations established by provision of paragraph 4, Article 64 of Private School Act (Law No. 270, 1949), Religious Corporation, Medical Corporation, Social Welfare Corporation, Central Organization of Groups of Small and Medium Enterprises, Chamber of Commerce and Industry, Commerce and Industry Association and Federations of Commerce and Industry Associations in Administrative Divisions) possessing number of employees permanently employed of 20 or less;

2. The income amount to be provided by the Order as provided in paragraph 1, Article 25 of the Law shall be the total of the income amounts of all the businesses run by the said corporation or individual for the subject business year (in case the period exceeds one year, each period divided into each one year after the

commencement of the subject period).

3. The requirements to be provided by the Order as provided in paragraph 1, Article 25 of the Law shall be that the income amount be ¥240,000,000 or less (for a person who runs a business belonging to commerce or service business as main business, ¥70,000,000).

(Councils to Hear Opinions for Directive to Specified Labeled Product Business Entity)

Article 18

The Councils to be provided by the Order as provided in paragraph 3, Article 25 of the Law shall be as set forth in the right-hand column of Appended Table 5, for each of the Specified Labeled Product Business Entities listed in the middle column of the same table pertaining to the Specified Labeled Products listed in the left-hand column of the same table.

(Product to Utilize Specified Resources-Reconverted Product as Parts)

Article 19

The Products to be provided by the Order as provided in paragraph 1, Article 26 of the Law shall be as set forth in the left-hand column of Appended Table 8.

(Requirements of Production Quantity or Sales Quantity Pertaining to Specified Resources-Reconverted Product Business Entity)

Article 20

The Requirements to be provided by the Order as provided paragraph 1, Article 33 of the Law shall be as set forth in the middle column of Appended Table 6, for each of the said Specified Resources-Reconverted Products for the Specified Resources-Reconverted Products listed in the left-hand column of the same table, and that the production quantity or the sales quantity of imported products for the subject business year for each of the said Products shall not be less than the production

quantity or sales quantity listed in the middle column of Appended Table 8, for the Products listed in the left-hand column of the same table.

(Councils to Hear Opinions for Directive to Specified Resources-Reconverted Product Business Entity)

Article 21

The Councils to be provided by the Order as provided in paragraph 3, Article 33 of the Law shall be as set forth in the right-hand column of Appended Table 6, for each of the subject Specified Resources-Reconverted Product Business Entities for the Specified Resources-Reconverted Product Business Entities pertaining to the Specified Resources-Reconverted Products listed in the left-hand column of the same table, and in the right-hand column in Appended Table 8 for each of the subject Specified Resources-Reconverted Product Business Entities for the Specified Resources-Reconverted Product Business Entities pertaining to the Specified Resources-Reconverted Products listed in the left-hand column of the same table.

(Requirements for Supply Quantity or Construction Work Cost Pertaining to Specified By-Product Business Entity)

Article 22

The requirements to be provided by the Order as provided in paragraph 1, Article 36 of the Law shall be as set forth, for each of the Specified By-Products listed in column 2 of Appended Table 7, respectively in column 3 of the same table.

(Councils to Hear Opinions for Directive to Specified By-Product Business Entity)

Article 23

The Councils to be provided by the Order as provided in paragraph 3, Article 36 of the Law shall be as set forth in column 4 of Appended Table 7, for each of the Specified By-Product Business Entities pertaining to the Specified By-Products respectively listed in column 2 of the same table.

(Report and On-The-Spot Inspection)

Article 24

The competent minister may, under the provision of paragraph 1, Article 37 of the Law, cause the Designated Resources-Saving Business Entity to render a report on the business belonging to the said Designated Resources-Saving Industry for the following matters:

- (1) Matters pertaining to business of manufacturing products;
 - (2) Matters pertaining to consumption quantity of raw materials, etc., generation quantity of by-products, facility conditions pertaining to reduction of generation of by-products, and other matters pertaining to reduction of generation of by-products;
 - (3) Matters pertaining to sales amount of recyclable resources pertaining to by-products, facility conditions pertaining to promotion of utilization of recyclable resources and other promotion of utilization of recyclable resources;
2. The competent minister may, under the provision of paragraph 1, Article 37 of the Law, cause his officials to enter the office, factory, works or warehouse of the Designated Resources-Saving Business Entity and to inspect equipment pertaining to reduction of generation of by-products, equipment for promotion of utilization of recyclable resources pertaining to by-products, and equipment for manufacturing products, and related facilities, raw materials, etc. pertaining to use and by-products pertaining to use of the said raw materials, etc. and related books and documents.

Article 25

The competent minister may, under the provision of paragraph 1, Article 37 of the Law, cause the Designated Resources-Reutilizing Business Entity to render a

report on the business belonging to the said Designated Resources-Reutilizing Industry for the following matters:

- (1) Matters pertaining to business of manufacturing products or execution of construction works;
 - (2) Matters pertaining to utilization quantity of recyclable resources or reusable parts, facility conditions pertaining to utilization of recyclable resources or reusable parts and other matters pertaining to utilization of recyclable resources or reusable parts;
2. The competent minister may, under the provision of paragraph 1, Article 37 of the Law, cause his officials to enter the office, factory, works or warehouse of the Designated Resources-Reutilizing Business Entity and to inspect equipment pertaining to utilization of recyclable resources or reusable parts and equipment pertaining to manufacturing products or equipment for execution of construction works, and related facilities, recyclable resources or reusable parts pertaining to utilization, and related books and documents.

Article 26

The competent minister may, under the provision of paragraph 2, Article 37 of the Law, cause the Specified Resources-Saved Product Business Entity to render a report on the operation conditions pertaining to the Specified Resources-Saved Product pertaining to his manufacturing for the following matters:

- (1) Matters pertaining to the kind and quantity of the said Specified Resources-Saved Product and business of manufacturing the said Specified Resources-Saved Product;
- (2) Matters pertaining to the improvement of structure for reduction of used goods, etc. pertaining to the said Specified Resources-Saved Product and reduction of generation of used goods, etc.;

2. The competent minister may, under the provision of paragraph 2, Article 37 of the Law, cause his officials to enter the office, factory, works or warehouse of the Specified Resources-Saved Product Business Entity and to inspect the Specified Resources-Saved Product pertaining to manufacturing, equipment and related facilities pertaining to manufacturing the said Specified Resources-Saved Product and related books and documents.

Article 27

The competent minister may, under the provision of paragraph 2, Article 37 of the Law, cause the Specified Resources-Reutilized Product Business Entity to render a report on the operation conditions pertaining to the Specified Resources-Reutilized Product pertaining to his manufacturing for the following matters:

- (1) Matters pertaining to the kind and quantity of the said Specified Resources-Reutilized Product and business of manufacturing the said Specified Resources-Reutilized Product;
 - (2) Matters pertaining to the improvement of structure for promotion of utilization of recyclable resources or reusable parts pertaining to the said Specified Resources-Reutilized Product and utilization of recyclable resources or reusable parts;
2. The competent minister may, under the provision of paragraph 2, Article 37 of the Law, cause his officials to enter the office, factory, works or warehouse of the Specified Resources-Reutilized Product Business Entity and to inspect the Specified Resources-Reutilized Product pertaining to his production, equipment and related facilities pertaining to manufacturing the said Specified Resources-Reutilized Product and related books and documents.

Article 28

The competent minister may, under the provision of paragraph 2, Article 37 of the Law, cause the Specified Labeled Product Business Entity to render a report on the operation conditions pertaining the Specified Labeled Product pertaining to his manufacturing or sales, for the following matters:

- (1) Matters pertaining to the kind and quantity of the said Specified Labeled Product and business of manufacturing or sales of the said Specified Labeled Product;
 - (2) Situation of indication of matters to be indicated pertaining to the said Specified Labeled Product situation of observation of matters to be observed;
2. The competent minister may, under the provision of paragraph 2, Article 37 of the Law, cause his officials to enter the office, factory, works or warehouse of the Specified Labeled Product Business Entity and to inspect the Specified Labeled Product pertaining to manufacturing or sales, equipment for manufacturing the said Specified Labeled Product and equipment for indication for matters to be indicated and related facilities and related books and documents.

Article 29

The competent minister may, under the provision of paragraph 4, Article 37 of the Law, cause the Specified Resources-Reconverted Product Business Entity to render a report on the situation of implementation of voluntary take-back or resources reconversion of the used Specified Resources-Reconverted Product pertaining to his manufacturing or sales for the following matters:

- (1) Kinds and quantity of the products as set forth in the left-hand column, utilizing the Specified Resources-Reconverted Product or the Specified Resources-Reconverted Product as parts pertaining to his manufacturing or sales;

- (2) Matters concerning the implementation method of **voluntary take-back** or resources reversion of the said used Specified Resources-Reconverted Product;
 - (3) Quantity of **voluntary take-back** of the said Specified Resources-Reconverted Product or quantity recyclable resource or reusable parts obtained by resources reversion of the said used Specified Resources-Reconverted Product;
 - (4) Matters concerning implementation of receipt and method of receipt of the said used Specified Resources-Reconverted Product if the municipality requests the receipt, and matters concerning cooperation with the municipality;
 - (5) Matters concerning implementation of **voluntary take-back** or resources-reversion of the said used Specified Resources-Reconverted Product;
2. The competent minister may, under the provision of paragraph 4, Article 37 of the Law, cause his officials to enter the office, factory, works or warehouse of the Specified Resources-Reconverted Product Business Entity and to inspect used Specified Resources-Reconverted Product pertaining to manufacturing or sales, equipment for **voluntary take-back** of the said used Specified Resources-Reconverted Product and equipment for resources reversion and related facilities and related books and documents.

Article 30

The competent minister may, under the provision of paragraph 5, Article 37 of the Law, cause the Specified By-Product Business Entity to render a report on the business belonging to the business pertaining to the said Specified By-Product for the following matters:

- (1) Matters concerning supply of energy and execution of construction work;
 - (2) Generation quantity of the said Specified By-Product;
 - (3) Quantity of sales of recyclable resources pertaining to the said Specified By-Product, situation of equipment concerning promotion of utilization of recyclable resources and matters concerning promotion of utilization of recyclable resources;
2. The competent minister may, under the provision of paragraph 5, Article 37 of the Law, cause his officials to enter the office, works or warehouse of the Specified By-Product Business Entity and to inspect the Specified By-Product pertaining to supply or execution, equipment pertaining to generation of the said Specified By-Product and equipment for promotion of utilization of recyclable resources pertaining to the said Specified By-Product and related facilities and related books and documents.

(Competent Ministers)

Article 31

The competent ministers for matters provided in item 4, paragraph 1, Article 39 of the Law, shall be as follows:

- (1) Minister of Economy, Trade and Industry, for matters pertaining to the business of manufacturing of the Specified Resources-Saved Product listed in the left-hand column in Appended Table 3;
- (2) Minister of Land, Infrastructure and Transport, for matters pertaining to the business of repair of the Specified Resources-Saved Product listed in the left-hand column of item 1 in Appended Table 3;
- (3) Minister of Economy, Trade and Industry, for matters pertaining to the

business of manufacturing of the Specified Resources-Reutilized Product listed in the left-hand column of items 1 through 34 and 38 through 47 and 50 in Appended Table 4;

- (4) Minister of Health, Labour and Welfare and Minister of Economy, Trade and Industry, for matters pertaining to the business of manufacturing of the Specified Resources-Reutilized Product listed in the left-hand column of items 35 through 37 and 48 and 49 in Appended Table 4;
- (5) Minister of Land, Infrastructure and Transport, for matters pertaining to the business of repair of the Specified Resources-Reutilized Product listed in the left-hand column of item 7 in Appended Table 4;
- (6) Minister of Economy, Trade and Industry, for matters pertaining to the business of manufacturing of the Specified Labeled Product listed in the left-hand column of items 1 and 7 in Appended Table 5 and to the business of sale of the imported products of the said Specified Labeled Product;
- (7) Minister of Agriculture, Forestry and Fisheries and Minister of Economy, Trade and Industry, for matters pertaining to the business of manufacturing of the Specified Labeled Product listed in the left-hand column of items 2 and 4 in Appended Table 5;
- (8) Minister of Agriculture, Forestry and Fisheries, for matters pertaining to the business of sale of the imported products of the Specified Labeled Product listed in the left-hand column of items 2 and 4 in Appended Table 5;
- (9) Minister of Finance and Minister of Economy, Trade and Industry, for matters pertaining to the business of manufacturing of the Specified Labeled Product listed in the left-hand column of items 3 and 5 in Appended Table 5;
- (10) Minister of Finance, for matters pertaining to the business of sale of the

imported products of the Specified Labeled Product listed in the left-hand column of items 3 and 5 in Appended Table 5;

- (11) Minister of Economy, Trade and Industry, for matters pertaining to the business of manufacturing of the Designated Containers and Packaging specified in No. 1 of the middle column of item 6 of Appended Table 5 among the Specified Labeled Product listed in the left-hand column of the said item;
- (12) Minister of Finance, for matters pertaining to the business (limited to the business specified in Nos. 2 and 3 of the middle column of item 6 in Appended Table 5. The same will apply in this item.) executed by the business entity who orders the manufacturing of the Specified Labeled Product listed in the left-hand column of the said item for its use in his business (hereinafter referred to as “the business entity who orders manufacturing”) and the business of sale of the imported merchandises contained in the said Specified Labeled Product or packaged with the said Specified Labeled Product;
- (13) Minister of Health, Labour and Welfare, for matters pertaining to the business executed by the business entity who orders manufacturing of the Specified Labeled Product listed in the left-hand column of item 6 in Appended Table 5 (limited to the business specified in No. 4 of the middle column of item 6 in Appended Table 5. The same will apply in this item.) and the business of sale of the imported merchandises contained in the said Specified Labeled Product or packaged with the said Specified Labeled Product;
- (14) Minister of Agriculture, Forestry and Fisheries, for matters pertaining to the business executed by the business entity who orders the manufacturing of the Specified Labeled Product listed in the left-hand column of item 6 in Appended Table 5 (limited to the business specified in No. 5 of the middle column of item 6 in Appended Table 5. The same will apply in this item.) and the business of sale of the imported merchandises contained in the said

Specified Labeled Product or packaged with the said Specified Labeled Product;

(15) Minister of Economy, Trade and Industry, for matters pertaining to the business executed by the business entity who orders the manufacturing of the Specified Labeled Product listed in the left-hand column of item 6 in Appended Table 5 (limited to the business specified in No. 6 of the middle column of item 6 in Appended Table 5. The same will apply in this item.) and the business of sale of the imported merchandises contained in the said Specified Labeled Product or packaged with the said Specified Labeled Product;

2. The competent ministers for matters provided in item 5, paragraph 1, Article 39 of the Law, shall be as follows:

(1) Minister of Economy, Trade and Industry and Minister of the Environment, for matters pertaining to the business of manufacturing of the Specified Resources-Reconverted Product listed in the left-hand column in Appended Table 6 and the business of sale of the imported products of the said Specified Resources-Reconverted Product;

(2) Minister of Economy, Trade and Industry and Minister of the Environment, for matters pertaining to the business of manufacturing of the products listed in the left-hand column of items 1 through 23 and 29 in Appended Table 8 and the business of sale of the imported products of the said products;

(3) Minister of Health, Labour and Welfare, Minister of Economy, Trade and Industry and Minister of the Environment, for matters pertaining to the business of manufacturing of the products listed in the left-hand column of items 24 through 28 in Appended Table 8 and the business of sale of the imported products of the said products;

3. The competent ministers for matters provided in item 6, paragraph 1, Article 39 of the Law, shall be as follows:
 - (1) Minister of Economy, Trade and Industry, for the industry listed in the first column of item 1 in Appended Table 7;
 - (2) Minister of Land, Infrastructure and Transport, for the industry listed in the first column of item 2 in Appended Table 7;
4. The competent ministerial ordinances for the matters provided in items 4 through 6, paragraph 1, Article 39 of the Law shall be the ordinances issued by the competent ministers specified in the foregoing three paragraphs.

(Entrustment of Authority)

Article 32

The authority of Minister of Land, Infrastructure and Transport by the provision of Articles 16, 17, 35, 36 and paragraphs 1 and 5, 37, of the Law shall be entrusted to the head of the regional development bureau and the Head of Hokkaido Development Bureau with jurisdiction of the place of the main location of business of the Designated Resources-Reutilizing Business Entity or the Specified By-Product Business Entity.

2. The authority pertaining to the jurisdiction under the National Tax Administration Agency among the authorities of Minister of Finance according to the provision of paragraph 2, Article 37 of the Law shall be entrusted to the head of the regional taxation bureau with jurisdiction of the location of office, factory, works or warehouse of the Specified Labeled Product Business Entity (in case the said location is in the area of Okinawa Prefecture, Head of Okinawa National Taxation Bureau) or the head of taxation office. However, it is not obstructed for Minister of Finance to execute his authority by himself.

3. The authority of Minister of Health, Labour and Welfare according to the provision of paragraph 2, Article 37 of the Law shall be entrusted to the head of the regional welfare bureau with jurisdiction of the location of office, factory, works or warehouse of the Specified Labeled Product Business Entity (in case the said location is in the area under the jurisdiction of Shikoku Welfare Branch Office, Head of Shikoku Welfare Branch Office). However, it is not obstructed for Minister of Health, Labour and Welfare to execute his authority by himself.
4. The authority of Minister of Agriculture, Forestry and Fisheries according to the provision of paragraph 2, Article 37 of the Law shall be entrusted to the head of the regional agricultural administration bureau with jurisdiction of the location of office, factory, works or warehouse of the Specified Labeled Product Business Entity. However, it is not obstructed for Minister of Agriculture, Forestry and Fisheries to execute his authority by himself.
5. The authority of Minister of Economy, Trade and Industry according to the provision of paragraph 2, Article 37 of the Law shall be entrusted to the head of the economy and industry bureau with jurisdiction of the location of office, factory, works or warehouse of the Specified Labeled Product Business Entity. However, it is not obstructed for Minister of Economy, Trade and Industry to execute his authority by himself.

Appended Table 1 (related to Articles 1 and 8 through 10)

First column	Second column	Third column	Fourth column	Fifth column	Sixth column	Seventh column
1. Wood chip, pulp or waste paper	Sludge	Pulp producing industry and paper manufacturing industry	Pulp or paper	60,000 tons	60,000 tons	Industrial Structure Council
2. Metallic mineral, non-metallic mineral, coal, crude oil or gas, or raw material produced by using them, etc.	Sludge	Inorganic chemical product manufacturing industry (excluding salt producing industry) and organic chemical product manufacturing industry	Inorganic chemical industry products (excluding salt) or organic chemical industry products	100,000 tons	100,000 tons	Industrial Structure Council
3. Iron ore, limestone, iron scrap or coke, or other reducing agents for iron making	Slag	Iron making industry and steel making and steel making and rolling industry	Pig iron, ferroalloy or crude steel	3,000 tons	3,000 tons	Industrial Structure Council
4. Copper ore or fluorite	Slag	Primary copper smelting and refining industry	Blister copper	70,000 tons	70,000 tons	Industrial Structure Council
5. Molding sand, iron and steel or non-ferrous metal	Metallic waste or waste molding sand	Automobile manufacturing industry (including motorized bicycle manufacturing industry)	Automobiles (including motorized bicycle. The same will apply hereinafter.)	10,000 units	10,000 units	Industrial Structure Council

Appended Table 2 (related to Articles 2, 11 and 12)

First column	Second column	Third column	Fourth column
1. Waste paper	Paper manufacturing industry	Annual paper production of 10,000 tons or more	Industrial Structure Council
2. Pipes or pipe fittings made from used rigid polyvinyl chloride (referred to the case where pipes or pipe fittings made from used rigid polyvinyl chloride have been once used or collected without being used or discarded.)	Industry manufacturing rigid polyvinyl chloride made pipes or pipe fittings	Annual production of 600 tons or more of rigid polyvinyl chloride made pipes or pipe fittings	Industrial Structure Council
3. Cullet	Glass container manufacturing industry	Annual production of 20,000 tons or more of glass containers	Industrial Structure Council
4. Driving units, exposure devices and other devices, provided by the Ordinance of the Ministry of Economy, Trade and Industry, of used copying machines (referred to the case where copying machines (limited to dry type indirect electrostatic, excluding color copying machines and other copying machines provided by the Ordinance of the Ministry of Economy, Trade and Industry. The same will apply hereinafter.) have been once used or collected without being used or discarded).	Industry manufacturing copying machines	Annual production of 1,000 copying machines or more	Industrial Structure Council
5. Soil and sand, concrete lump or asphalt-concrete lump	Construction industry	Annual execution amount of construction work of 5 billion yens or more	Central Construction Industry Council

Appended Table 3 (related to Articles 3, 13, 14 and 31)

1. Automobiles	10,000 cars	Industrial Structure Council
2. Personal computers (including their display units of CRT type or LCD type. The same will apply hereinafter.)	10,000 units	Industrial Structure Council
3. Unit type air conditioners (excluding package type air conditioners. The same will apply hereinafter.)	50,000 units	Industrial Structure Council
4. Pachinko play machines	10,000 units	Industrial Structure Council
5. Rotary body type play machines	5,000 units	Industrial Structure Council
6. Television sets	50,000 units	Industrial Structure Council
7. Microwave ovens	10,000 units	Industrial Structure Council
8. Clothes driers	10,000 units	Industrial Structure Council
9. Electric refrigerators	50,000 units	Industrial Structure Council
10. Electric washing machines	50,000 units	Industrial Structure Council
11. Storage furniture (limited to that of metal made. The same will apply hereinafter.)	10,000 units	Industrial Structure Council
12. Shelves (limited to those of metal made. The same will apply hereinafter.)	10,000 units	Industrial Structure Council
13. Office desks (limited to those of metal made. The same will apply hereinafter.)	10,000 units	Industrial Structure Council
14. Swivel chairs (limited to those that are composed of metallic components. The same will apply hereinafter.)	20,000 units	Industrial Structure Council
15. Oil stoves (excluding those of closed combustion type and others provided by the Ordinance of the Ministry of Economy, Trade and Industry. The same will apply hereinafter.)	10,000 units	Industrial Structure Council
16. Gas cooking stoves (limited to those with grills. The same will apply hereinafter.)	10,000 units	Industrial Structure Council
17. Instantaneous gas water heaters (limited to those of end stop type. The same will apply hereinafter.)	5,000 units	Industrial Structure Council
18. Bath heaters with gas burners (limited to those with hot water supply devices. The same will apply hereinafter.)	10,000 units	Industrial Structure Council
19. Water heaters (limited to those with oil used as fuel. The same will apply hereinafter.)	10,000 units	Industrial Structure Council

Appended Table 4 (related to Articles 4, 15, 16 and 31)

1. Bathroom units (referred to those that are manufactured with bathtubs, water tap faucets, lighting equipments and other tools or equipment necessary for bathing as unit and including those manufactured with toilets or lavatories).	1,000 units	Industrial Structure Council
2. Electric power supply devices	1,000 units	Industrial Structure Council
3. Power tools	10,000 units	Industrial Structure Council
4. Guide lights	10,000 units	Industrial Structure Council
5. Fire alarm systems	1,000 units	Industrial Structure Council
6. Security alarm devices	10,000 units	Industrial Structure Council
7. Automobiles	10,000 cars	Industrial Structure Council
8. Bicycles (limited to those that use electric motors for supplementing human power. The same will apply hereinafter.)	1,000 units	Industrial Structure Council
9. Wheel chairs (limited to those of electrically driven type. The same will apply hereinafter.)	1,000 units	Industrial Structure Council
10. Personal computers	10,000 units	Industrial Structure Council
11. Printers	10,000 units	Industrial Structure Council
12. Portable data collecting devices	10,000 units	Industrial Structure Council
13. Cordless telephones	2,000 units	Industrial Structure Council
14. Facsimile devices	5,000 units	Industrial Structure Council
15. Telephone switchboards	1,000 units	Industrial Structure Council
16. Devices for portable telephones	10,000 units	Industrial Structure Council
17. Communication devices for MCA system	1,000 units	Industrial Structure Council
18. Communication devices for simplicity radio	1,000 units	Industrial Structure Council
19. Radio sets for amateurs	1,000 units	Industrial Structure Council
20. Unit type air conditioners	50,000 units	Industrial Structure Council
21. Pachinko play machines	10,000 units	Industrial Structure Council
22. Rotary drum play machines	5,000 units	Industrial Structure Council
23. Copying machines	1,000 units	Industrial Structure Council
24. Television sets	50,000 units	Industrial Structure Council
25. Video cameras	10,000 units	Industrial Structure Council
26. Headphone stereos	10,000 units	Industrial Structure Council
27. Microwave ovens	10,000 units	Industrial Structure Council
28. Clothes driers	10,000 units	Industrial Structure Council
29. Electric refrigerators	50,000 units	Industrial Structure Council
30. Electric washing machines	50,000 units	Industrial Structure Council
31. Vacuum cleaners	10,000 units	Industrial Structure Council
32. Electric shavers (limited to those with batteries. The same will apply hereinafter.)	10,000 units	Industrial Structure Council
33. Electric toothbrushes	10,000 units	Industrial Structure Council
34. Emergency lighting devices	10,000 units	Industrial Structure Council

35. Sphygmomanometer	10,000 units	Pharmacy and Food Sanitation Council and Industrial Structure Council
36. Infusion instruments	1,000 units	Pharmacy and Food Sanitation Council and Industrial Structure Council
37. Electric massagers	10,000 units	Pharmacy and Food Sanitation Council and Industrial Structure Council
38. Storage furniture	10,000 units	Industrial Structure Council
39. Shelves	10,000 units	Industrial Structure Council
40. Office desks	10,000 units	Industrial Structure Council
41. Swivel chair	20,000 units	Industrial Structure Council
42. System kitchens (referred to the products where kitchen sinks, cooking tables, cupboards and other tools or equipment necessary for cooking are manufactured as unit.)	5,000 units	Industrial Structure Council
43. Oil stoves	10,000 units	Industrial Structure Council
44. Gas cooking stoves	10,000 units	Industrial Structure Council
45. Gas instantaneous water heaters	5,000 units	Industrial Structure Council
46. Bath heaters with gas burners	10,000 units	Industrial Structure Council
47. Water heaters	10,000 units	Industrial Structure Council
48. Household electric therapeutic apparatuses	10,000 units	Pharmacy and Food Sanitation Council and Industrial Structure Council
49. Electric bubble generators (limited to those for bathtubs. The same will apply hereinafter.)	10,000 units	Pharmacy and Food Sanitation Council and Industrial Structure Council
50. Electric toys (limited to those of automobile type. The same will apply hereinafter.)	10,000 units	Industrial Structure Council

Appended Table 5 (related to Articles 5, 18 and 31)

<p>1. Polyvinyl chloride made construction materials (referred to rigid polyvinyl chloride made pipes, gutters and window frames and polyvinyl chloride made floor materials and wall papers. The same will apply hereinafter in this item.)</p>	<p>Business entity who manufactures polyvinyl chloride made construction materials and business entity who sells polyvinyl chloride made construction materials which have been imported by him.</p>	<p>Industrial Structure Council</p>
<p>2. Cans made from steel or aluminum (limited to those with content volume of 7 liters or less. Hereafter only referred to as “cans”.) and filled with beverage (excluding liquors. Hereafter referred to only as “beverage”.)</p>	<p>1. Business entity who manufactures cans</p>	<p>Industrial Structure Council</p>
	<p>2. Business entity filling beverage into cans and business entity who sells cans filled with beverage which have been imported by him.</p>	<p>Food, Agriculture and Farm Village Policy Council</p>
<p>3. Cans filled with liquors</p>	<p>1. Business entity who manufactures cans</p>	<p>Industrial Structure Council</p>
	<p>2. Business entity filling liquors into cans and business entity who sells cans filled with liquors which have been imported by him.</p>	<p>National Tax Council</p>
<p>4. Polyethylene terephthalate made containers (limited to those with content volume of 150 ml or more. They are referred to as “polyethylene terephthalate made containers hereinafter.) filled with beverage or soy sauce.</p>	<p>1. Business entity who manufactures polyethylene terephthalate made containers.</p>	<p>Industrial Structure Council</p>
	<p>2. Business entity filling beverage or soy sauce into polyethylene terephthalate made containers and business entity who sells polyethylene terephthalate made containers filled with beverage or soy sauce which have been imported by him.</p>	<p>Food, Agriculture and Farm Village Policy Council</p>
<p>5. Polyethylene terephthalate made containers filled with liquors.</p>	<p>1. Business entity who manufactures polyethylene terephthalate made containers.</p>	<p>Industrial Structure Council</p>
	<p>2. Business entity filling beverage into polyethylene terephthalate made containers and business entity who sells polyethylene terephthalate made containers filled with beverage which have been imported by him.</p>	<p>National Tax Council</p>

<p>6. Designated containers and packaging (among containers and packaging (referred to those that become unnecessary in case the said merchandises have been consumed or are separated from the said merchandises) referred to those of paper made or mainly plastic made excluding polyethylene terephthalate made containers to fill beverage, soy sauce or liquors and others provided by the order of the competent ministry. The same will apply hereinafter in this item.)</p>	<p>1. Business entity who manufactures the Designated containers and packaging (limited to the containers for merchandises and provided by the Ordinance of Economy, Trade and Industry.)</p>	<p>Industrial Structure Council</p>
	<p>2. Business entity who orders manufacturing of the Designated containers and packaging for service of use of his business (limited to cigarette business or salt business. The same will apply hereinafter in this item.) and business entity who sells merchandises contained in the Designated containers and packaging or packaged with the Designated containers and packaging which have been imported by him.</p>	<p>Financial System Council</p>
	<p>3. Business entity who orders manufacturing of the Designated containers and packaging for service of use of his business (limited to liquor business. The same will apply hereinafter in this item.) and business entity who sells merchandises contained in the Designated containers and packaging or packaged with the Designated containers and packaging which have been imported by him.</p>	<p>National Tax Council</p>
	<p>4. Business entity who orders manufacturing of the Designated containers and packaging for service of use of his business (limited to the business under the jurisdiction of Minister of Health, Labour and Welfare. The same will apply hereinafter in this item.) and business entity who sells merchandises contained in the Designated containers and packaging or packaged with the Designated containers and packaging which have been imported by him.</p>	<p>Pharmacy and Food Sanitation Council and Industrial Structure Council</p>

	<p>5. Business entity who orders manufacturing of the Designated containers and packaging for service of use of his business (limited to the business under the jurisdiction of Minister of Agriculture, Forestry and Fisheries. The same will apply hereinafter in this item.) and business entity who sells merchandises contained in the Designated containers and packaging or packaged with the Designated containers and packaging which have been imported by him.</p>	<p>Food, Agriculture and Farm Village Policy Council</p>
	<p>6. Business entity who orders manufacturing of the Designated containers and packaging for service of use of his business (limited to the business under the jurisdiction of Minister of Economy, Trade and Industry. The same will apply hereinafter in this item.) and business entity who sells merchandises contained in the Designated containers and packaging or packaged with the Designated containers and packaging which have been imported by him.</p>	<p>Industrial Structure Council</p>
<p>7. Sealed storage batteries (referred to sealed lead storage batteries (limited to those whose quantity of electricity is 234 kilo coulombs or less. The same will apply hereinafter.), sealed alkaline storage batteries or lithium storage batteries (limited to those covered with plastic or other materials in case of those that are imported, and excluding those that are imported as components of apparatuses.) The same will apply hereinafter in this item.)</p>	<p>Business entity who manufactures sealed storage batteries and business entity who sells sealed storage batteries which have been imported by him.</p>	<p>Industrial Structure Council</p>

Appended Table 6 (related to Articles 6, 20, 21 and 31)

1. Personal computers (excluding those whose weight is 1 kg or less. The same will apply hereinafter in this item.)	10,000 or more personal computers that have been manufactured or imported by business entity and sold during the business year.	Industrial Structure Council and Central Environment Council
2. Sealed storage batteries (referred to sealed lead storage batteries, sealed alkaline storage batteries or lithium storage batteries. The same will apply hereinafter in this item.)	2,000,000 or more sealed storage batteries that have been manufactured or imported by business entity and sold during the business year.	Industrial Structure Council and Central Environment Council

Appended Table 7 (related to Articles 7, 22, 23 and 31)

1. Electricity industry	Coal ash	Annually supplied electricity of 120,000,000 kWh or more	Industrial Structure Council
2. Construction industry	Soil and sand, concrete lumps, asphalt-concrete lumps or lumbers	Annual construction contract amount of 5,000,000,000 yens or more	Central Construction Industry Council

Appended Table 8 (related to Articles 19-21, 29 and 31)

1. Electric power supply devices	1,000 units	Industrial Structure Council and Central Environment Council
2. Power tools	10,000 units	Industrial Structure Council and Central Environment Council
3. Guide lights	10,000 units	Industrial Structure Council and Central Environment Council
4. Fire alarm systems	1,000 units	Industrial Structure Council and Central Environment Council
5. Security alarm devices	10,000 units	Industrial Structure Council and Central Environment Council
6. Bicycles	1,000 units	Industrial Structure Council and Central Environment Council
7. Wheel chairs	1,000 units	Industrial Structure Council and Central Environment Council
8. Personal computers	10,000 units	Industrial Structure Council and Central Environment Council
9. Printers	10,000 units	Industrial Structure Council and Central Environment Council

10. Portable data collecting devices	10,000 units	Industrial Structure Council and Central Environment Council
11. Cordless telephones	2,000 units	Industrial Structure Council and Central Environment Council
12. Facsimile devices	5,000 units	Industrial Structure Council and Central Environment Council
13. Telephone switchboards	1,000 units	Industrial Structure Council and Central Environment Council
14. Devices for portable telephones	10,000 units	Industrial Structure Council and Central Environment Council
15. Communication devices for MCA system	1,000 units	Industrial Structure Council and Central Environment Council
16. Communication devices for simplicity radio	1,000 units	Industrial Structure Council and Central Environment Council
17. Radio sets for amateurs	1,000 units	Industrial Structure Council and Central Environment Council
18. Video cameras	10,000 units	Industrial Structure Council and Central Environment Council
19. Headphone stereos	10,000 units	Industrial Structure Council and Central Environment Council
20. Vacuum cleaners	10,000 units	Industrial Structure Council and Central Environment Council
21. Electric shavers	10,000 units	Industrial Structure Council and Central Environment Council
22. Electric toothbrushes	10,000 units	Industrial Structure Council and Central Environment Council
23. Emergency lighting devices	10,000 units	Industrial Structure Council and Central Environment Council
24. Sphygmomanometer	10,000 units	Pharmacy and Food Sanitation Council, Industrial Structure Council and Central Environment Council
25. Infusion instruments	1,000 units	Pharmacy and Food Sanitation Council, Industrial Structure Council and Central Environment Council
26. Electric massagers	10,000 units	Pharmacy and Food Sanitation Council, Industrial Structure Council and Central Environment Council
27. Household electric therapeutic apparatuses	10,000 units	Pharmacy and Food Sanitation Council, Industrial Structure Council and Central Environment Council
28. Electric bubble generators	10,000 units	Pharmacy and Food Sanitation Council, Industrial Structure Council and Central Environment Council
29. Electric toys	10,000 units	Industrial Structure Council and Central Environment Council
